Washroom Surfaces

Tops with Integral Bowls

Specifications

High quality solid cast stone resin material.

All vanity tops are 20mm thick plus edge detail

Compatible with clients own sink system.

Polished rim cast cuts for undermounted basins can be specified for clients choice of basin.

Undermounted and integral basins available pre-fitted.

Manufactured to clients specifications.

Vanity tops can be made to templates to suit all leading furniture manufacturers.

Finished with a polyester gel coat. High gloss finish.

Available in 90 colour options including true to life marble and granite's, sparkle and solid colour finishes.

Features & Benefits

Ideal for domestic installations, hotels, leisure, health clubs and spa's.

Versital is impervious to soaps and detergents.

Hygienic and easy to clean.

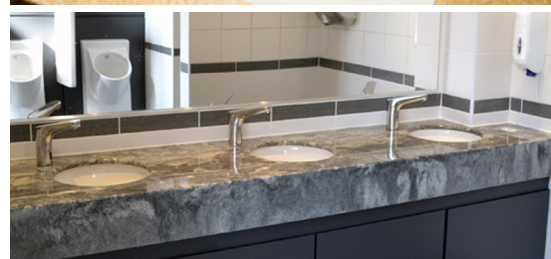

Available oversized for cutting and scribing on site. Versital is cut using ordinary wood working tools. No need for templating.

Can be cut onsite for inset basins.

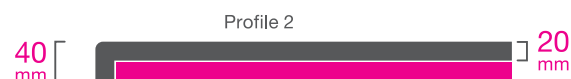

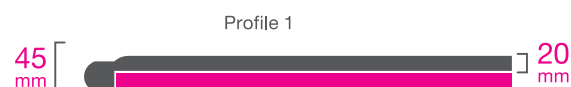

Custom RAL options available upon request.

The gel coat finish is impervious to stains. Most other solid surface materials lack this protective layer (allowing stains to penetrate the surface).

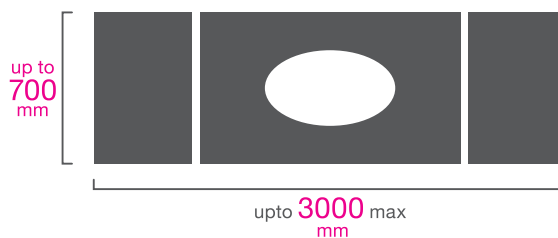

Economies of scale available on bulk purchases.

Edge Profiles

Range/Sizes

Other depths and edge profiles available on request. Multiple bowl tops also available.

* Versital integral basins should not be used where hot water temperature exceeds 55°F
